REHEATING YOUR TAKEAWAY

Your takeaway has travelled a little distance to get to you, for optimum enjoyment we recommend reheating your dishes before tucking in.

You'll need to remove any lemon, chutney, or other garnishes, you can replace them once your dish is piping hot.

Curries, Starters, & Sides

Microwave (800W) for 60 seconds with the lid on.

Biryanis & Seekh Kebabs

Microwave (800w) for 90 to 120 seconds with the lid on.

Meats & Samosas

Preheat your oven to 160 degrees, and lay food on a baking tray or other oven-proof dish. Once the oven is warm, place inside for 8 to 12 minutes.

Fish

Microwave (800W) for 20 to 30 seconds with the lid on.

Breads

Sprinkle with a little water and warm in the oven on a low heat.

PLEASE NOTE: you may need to slightly alter cooking times to suit your own microwave or oven. Reheat dishes one by one in the microwave.

We **DO NOT** recommend that you reheat the following items:
ALOO CHAAT, KATI ROLLS & VADA PAO

We hope you enjoy your takeaway.
